Tutankhamun's Tomb

Who Found His Tomb?

The tomb was found by a group of researchers led by Howard Carter. It was discovered in 1922, which means that all of the treasures and the body inside have been left in very good condition. Carter worked out from other important finds that the tomb would be in the Valley of the Kings. A man named Theodore Davis found a cup with Tutankhamun and his wife on it. This was a clue that helped Carter find the tomb.

What They Found Inside

Inside the tomb they found over 3000 treasures meant for Tutankhamun to take with him into the afterlife. Many of the items were made from, or covered in, gold – perfect for a king. The tomb was split into many different rooms. Most of the rooms were for the objects, apart from the burial chamber which just held his sarcophagus (a decorated stone coffin).

Decoration

The burial chamber with the body is the only decorated room in the tomb, which is very unusual for a resting place for a king.

Normally, all the walls would be carved or painted, which is how we know that Tutankhamun died very suddenly.

The images on the walls were from a ritual called the 'opening of the mouth'.

The Curse of the Mummy!

The curse of the mummy started after Tutankhamun's tomb was opened. Mummies have been thought to have magical powers and will curse anyone who disturbs them. It started when Lord Carnarvon, the man who paid for the dig of King Tut's tomb, died soon after it was opened. As soon as he died, all the lights in Cairo went out mysteriously. Other stories are that Carter's pet canary was killed by a cobra and Carnarvon's dog died the same night. Some think it was a germ but others say it was magic.

Recognising Parenthesis

1. Tick the two sentences which would be clearer if the parenthesis was demarcated accurately.

A. The hill a short walk from the church gives a great view of the countryside.	<input type="checkbox"/>
B. Green sea turtles live in tropical coastal waters around the world.	<input type="checkbox"/>
C. I will be taking part in a pentathlon which includes five different events next month.	<input type="checkbox"/>
D. The wind was blowing wildly across the open grasslands of Africa.	<input type="checkbox"/>
