Walking in a Winter Wonderland: Description

Read the WAGOLL.

Highlight any parts you think are good.

As I walk through the deep white snow, I can feel and hear it crunching underneath my tiny feet. The air feels as cold as ice. It looks like smoke is coming from my mouth as I breathe slowly in the wintry air. Above me, the stars are twinkling in the dark night sky and snow glistens on the tall trees. There are children playing and I can see they've built a friendly looking snowman. Their hands must be cold but they don't care! Why would they when they're having so much fun?!

Suddenly, I spot a bright light appear. I'm almost home! I can hear beautiful singing coming from inside. Opening the door, my face feels warm and my hands stop tingling. There's a toasty fire making a crackling noise. It feels so cosy inside. I smile because I spot a red mug of hot chocolate on the side. It's filled with marshmallows and delicious cream!

What a wonderful time of year Christmas is!
