

Stoneferry Primary School—April Newsletter—Week 4

Mr Raw, Head of School

This week really seems to have flown by, especially following the Bank Holiday weekend. This week in school we have been focusing on monitoring our EYFS provision. It was fantastic to spend time in both Foundation 1 and 2 seeing the children learning and making the most of the wonderful facilities we now have at the school. The teamwork of all the staff also makes this a special place to be a learner. During my time in this area I followed a young person for 10 minutes watching what they did and what they could experience during continuous provision. It was incredible to see how independent and engaged this child was, and how they made the most of every opportunity on offer. I finished my time, by watching a fantastic Maths lesson in which the children were so enthusiastic and knowledgeable. Our Foundation Stage has moved forward so much and I truly believe this area of school is first class. WE have lately updated our school website to show everyone how proud we are of it too, and hope you have had a chance to visit the site to watch the new video that has been created.

Going Ultra

In June, Miss Northen will be taking on an Ultramarathon> She will be attempting to cover 46 miles in one go and is busy training whenever she can. Today we have sent home a letter explaining how we hope you can get involved to support her. We have decided that using our Daily Mile track we will share the 46 miles out between the classes at school and then all the children over the next few weeks will complete a share of this so that as a school the combined total will be equal to 46 miles. We would be very grateful if you can sponsor your child, and Miss Northen for this event and have sent home forms to do so. Miss Northen has also created a just giving account. Any money raised will be shared between the school and the charity MIND. As a school we hope to buy some new exciting books for all the children to enjoy. Thank you

Stand out moments

There are so many children doing so many great things in school. Here are some more children who have caught my eye this week: In F1 James is really growing in confidence and enjoying the after school club, in F2 Floss dazzled with her number work, in Y1 Ella showed great concentration in Reading, in Y2 Leland read so incredibly, in Y3 Ainsley has pushed himself so hard with home reading, in Y4 Ramone has completed some excellent Maths work, in Y5 - Ava's love of working has seen her working at home too, and in Y6 Warren produced some outstanding writing.

Yogo and Midfulness

Above are a few images from the Year 6 Yoga session this morning. The weather was fantastic and this was the perfect way to start the day. The activity was building on teamwork and self worth and all the children did amazingly. Antonia our teacher is working with all the children and is making a huge impression on them. Her clear message of positivity is infectious and the children are gaining a great deal from this each week after what has been an incredibly difficult year.
