

Stoneferry Primary School—June Newsletter—Week 4

Did I speak too soon?

We would be forgiven today for thinking that we were in November and not June, but in school we have not let the poor weather dampen our spirits. Yoga sessions today have focused on mindfulness and positivity and being grateful for what we have in life, and the atmosphere in school has remained very positive.

Today I would just like to wish a collective good luck to Miss Northen in her quest to complete her ultramarathon tomorrow. Earlier in the week she was informed that the route had been extended to 50 miles but we are sure that Miss Northen will give it her all and do amazing. Our theme in school this week has been real life superheroes and Miss Northen is definitely an example of this. Through donations she has raised hundreds of pounds and this will really make a difference. We are extremely proud of Miss Northen and wish her every bit of luck. #superhero.

Have a great weekend and I hope that we see as many of you as possible over the next couple of days.

Dropping off Children

Please can I remind all parents regarding dropping children off at school on a morning and collecting on an afternoon. Parents should under no circumstances use the entrance to Seaway.

Please use the car park at Pets at Home and make the short walk to the school gate from there. Last week we had a very near miss involving a child from school and as a school community we must ensure that we do everything to ensure this does not happen again. Thank you.

Stand out moments

There are so many children doing so many great things in school. Here are some more children who have caught my eye this week: In F1 Harper always make me smile with her enthusiasm, in F2 Testy is impressing me with his reading and ability to blend, in Y1 Elsie's attitude cannot be beaten, in Y2 Evie Rose's handwriting looks so amazing, in Y3 Jack's writing book wowed me, in Y4 Finley, Lennox and Amelia have stood out at Rapid Reading, in Y5 Joe's writing book looks incredible, and in Y6 Brooklyn's Geography work was very impressive! Well done everyone!

Scarecrows Festival

Saturday 10-12

and Sunday 1-3

Our Scarecrow Festival is finally upon us and we hope to see as many of you as possible over the weekend to take part. It has been great to hear of streets creating their own themes and also to see the efforts of the children within the school.

Please encourage as many people, friends and family to come along and take part in what is our first event organised by our new PTA. Thank you.

Mr Raw, Head of School

Transition Day 12th July

A few people have asked regarding timings for the transition day.

We will be keeping our staggered start on this day and children should arrive and leave at the timings for their “new” year group on this day.

New Year 5 and New Year 6

8:40 a.m. to 2:40 p.m.

New Year 3 and New Year 4

8:50 a.m. to 2:50 p.m.

New Year 1 and New Year 2

9:00 a.m. to 3:00 p.m.

New Foundation 2 to go to F1 as usual.

Everything will go back to normal on the following day.

Geography Competition

Our last whole school competition of the year will be for Geography and for this I would like you to design a new form of transport. Details for the competition can be found on the back of this newsletter. Closing date will be the 16th July. This will give me the chance to judge the entries and provide prizes for the winning entries. Everyone who takes part will also receive a small prize.

Geography Competition

With the current issues with cars, lorries and traffic in the Stoneferry area, we are all aware of the environmental impact of traffic on the environment. For our geography competition I would like you to consider the future and what transport might look like in a more environmentally friendly world.

I would like you to draw, label and create a **new form of transport**.

When you are doing so I want you to consider the following:

- How many people can it transport?
- How is it powered?
- How could it stop traffic jams?
- What is it made out of?
- How does it improve safety?

For each of these points think how it could have less of an impact on the environment.

To help you could work with your mum and dad to look at ideas on the internet.

Please work on paper and if you require some please just ask your teacher. Once you have completed your design please bring your finished work into school with your name and class on and then hand to your teacher. Closing date is 16th July.

Stoneferry Superstars

Sophie (Y2) started swimming lessons before the start of the pandemic and was doing really well. Unfortunately due to the restrictions in place she hasn't been going in over a year and a half and had lost some of her confidence. However after starting again following the latest easing of restrictions Sophie is now making fantastic progress and has received these certificates after only 4 lessons, and was eager to share this with everyone.

Well done to Sophie. We are really glad to see that your confidence has risen and that you are making waves in the pool.

If you would like a mention on the newsletter, please send a picture and some information to admin@stoneferry.hull.sch.uk and I will add you to the next
